EXPERIENCE

GONEUTRAL | SOFTWARE DEVELOPMENT ENGINEER

Feb 2025 – Present | Onsite | Gurugram, India

AI-POWERED SUSTAINABLE PACKAGING ASSISTANT (ELTER) Apr 2025 – Present | AI/ML Engineer

- Building an intelligent AI chat platform to help packaging clients choose sustainable materials through interactive product discovery and feedback mechanisms.
- Developed ML models for analyzing user inputs, generating insights, and producing 3D packaging visualizations based on customer preferences and eco-compliance rules.
- Integrated the chat engine with Django backend, PostgreSQL, and Next.js frontend; deployed on AWS with scalable microservices and secure API architecture.

ENTERPRISE FINANCIAL MANAGEMENT Feb 2025 – Apr 2025 | Lead Developer & DevOps Engineer

- Engineered a full-scale FinTech system to digitize and automate payroll, taxation, GST compliance, e-way billing, and document signing for enterprise clients.
- Integrated banking APIs, GST verification services, and real-time logistics tracking with delivery partners (eKart, FedEx, BlueDart) for seamless financial workflows.
- Led backend development in Django with PostgreSQL and Redis, implemented RBAC, automated mail and WhatsApp notifications, and ensured cloud-native deployment on AWS (EC2, S3, Lambda).

INDROYDLABS | SOFTWARE ENGINEER INTERN

Nov 2024 – Feb 2025 | Hybrid | Pune, India

DEVOPS & PRODUCT DEVELOPMENT Nov 2024 - Feb 2025 | Backend Lead & DevOps Engineer

- Led backend architecture and full-stack development for a multi-module enterprise system with user, booking, inventory, salary, and permission management modules using Spring Boot, Java 8, AngularJS, and MySQL.
- Spearheaded DevOps automation for a hardware-integrated payment system, maintaining Dockerfiles, Jenkins pipelines, Compose files, and full Kubernetes deployment with AWS auto-scaling and monitoring via Datadog.
- Handled two product teams simultaneously, delivering scalable systems from design to deployment, while ensuring smooth CI/CD workflows and high availability.

FINOPSRJ SOLUTION | FULL STACK DEVELOPER INTERN

July 2024 – Nov 2024 | Remote | Bangalore, India

SCALABLE E-COMMERCE PRODUCT July 2024 - Nov 2024 | Lead Developer & DevOps Engineer

- Designed a highly scalable microservices architecture for a high-traffic e-commerce platform serving millions of users using Quarkus framework.
- Developed and containerized 30+ microservices with Docker, established API Gateway integration, and configured Compose and Jenkins pipelines.
- Authored complete Kubernetes manifests with auto-scaling policies and deployed infrastructure on AWS with multi-environment support (dev, staging, prod).
- Created and integrated a React Native mobile application, collaborated on complex UI flows, and ensured seamless communication with backend services.

HULKHIRE | JAVA DEVELOPER INTERN

Mar 2024 – July 2024 | Remote | Hyderabad, India

E-COMMERCE PAYMENT SYSTEM INTEGRATION Mar 2024 - July 2024 | Finance Team

- Contributed to adapting a UK-based e-commerce platform for Indian compliance, focusing on financial transaction features.
- Developed core modules: validation, processing, and gateway services for payment lifecycle management (completed, failed, expired, refund, in-progress).
- Integrated major payment gateways: Razorpay, Stripe, and PayPal; ensured robust transaction flow and error handling.
- Created Dockerfiles for service containerization and assisted in SQL setup for backend services integration.
